Zsolt Bedő, PhD
Director of Innovation, UP FBE

The Center for Applied Learning is dedicated to bringing the "world of practice" into all activities of the Faculty of Business and Economics (FBE) to inspire meaningful research and to make knowledge more applicable.

To achieve this mission, we at the Center for Applies Learning (CAL) believe that **the best way to learn business is to do business**. Learning through experience not just enhances efficiency but makes the learning journey more fun and unforgettable.

To provide the opportunity for all students and colleagues at the FBE to leverage on the possibility of experience the CAL nurtures, catalyzes and coordinates the **business ecosystem** of the institution.

ENJOY THIS TEASER ABOUT OUR 2021/2022 ACADEMIC YEAR, LEARN ABOUT OUR TEAM, PROGRAMS, AND PLANS FOR THE UPCOMING YEARS.

Within this Alumni ecosystem members, partner companies of all king, experts from around the world don't just contribute to learning and to research but can benefit becoming learners again or by having their business challenges solved by talented students or by world class researchers. By obeying the rule of reciprocity, the business ecosystem of the FBE is to become a regional marketplace for learning opportunities.

CENTER FOR APPLIED LEARNING

The Center for Applied Learning (CAL) is an initiative of the Faculty of Business and Economics at the University of Pécs where practice meets theory and students get to have rewarding engagements with different companies, entrepreneurs, and customers.

It is through CAL and its **development centers**' initiatives that these companies, entrepreneurs, and market customers get to learn about the newest groundbreaking research through projects, ideation, testing, or shared experiences. **The aim of CAL**, its events and projects, is to enable students of the Faculty of Business and Economics to work on real-life projects with real clients from the beginning of their studies to enable companies to actively participate in the focused skill development of potential future employees.

CAL also runs initiatives to provide the local community surrounding the University with innovative, practical, and implementable solutions. CAL aims to contribute towards the **local development** through the work done by students and partners.

In as much as CAL serves the local community, it also **promotes and integrates global initiatives** through its programs and initiatives for students and the faculty community.

CAL AREAS

CAL also provides opportunities to help students become innovative problem-solvers tackling organizational and global issues that contribute towards the development of actionable solutions for organizations as well as solutions suitable for national and global sustainable growth in the various spheres of society.

The CAL office space located on the 4th floor of the Faculty in the **Hatchery** is open for students to explore and enquire about the various development centers and the **various events** and **programs organized by CAL and the centers**.

The Center also coordinates the process of starting a new **short program**, **training**, **and certificate programs** aiming to make employees more resilient and agile.

We continuously communicate with students, practitioners, and other stakeholders on local, national, and international levels to identify the needs and check opportunities and resources available.

CAL coordinates

coordinates Alexandra training courses and workshops organized by the Center for Applied Learning (CAL). Her activities entail various responsibilities, like keeping in touch with the training organizer partners, and sponsors training participants, managing course sessions and securing new potential collaborations to ensure more variety of courses for training the citizens in University business sciences. She is also an Assistant Professor at the Department of Finance and Accounting.

Vivien is running the Simonyi BEDC Entrepreneurship Center, organizing ideation incubation competition, an program, trainings and pitch competitions available for all UP citizens. Coordinates the Simonyi Programs with the Input Initiative and the Hungarian Startup University Program while continuously searching for ideas, research results that could be turned into a business opportunity and/or an intellectual capital. Also, as an Assistant Professor of Finance in the Finance and Accounting Department brings theory closer to practice through entrepreneurial finance courses with built in project components.

Péter is the head of the Consumer Research Centre called the CoRe lab. In this position, he mainly focuses on buildina strong corporate partnerships with businesses in order to conduct market research projects for them. He also focuses on applying innovative market research methodologies, especially eye-tracking. He has been a researcher since 2012 and has participated in various research projects. He also has experience in several industries. As of 2020, he is an assistant professor at the Department of Marketing and Tourism.

PROJECTS & PARTNERSHIPS

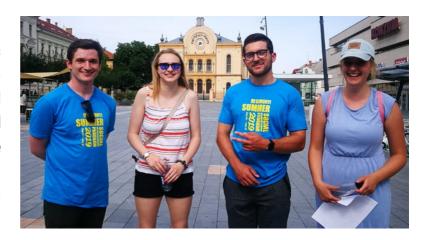

The Simonyi Summer Social Entrepreneurship Program is designed to train and mentor participants from diverse disciplines and backgrounds aet involved in improving their own and their peers' entrepreneurial skills. lt promotes problem-solving for businesses that promote social impact. The program is an international program run in partnership with Ohio University.

The international participants learn and act at the capacity of entrepreneurship consultants helping Startups, regional and international Public/Private, For-Profit, and Not For Profit organizations. Multi-disciplinary Entrepreneurship, Social Entrepreneurship, Innovation Commercialization, and Sustainable Regional Development, smart specialization is some of the major areas of the four-weeklong work and practice.

The program takes a needs-based learning approach and extends the opportunity for practising Creative Communication, Networking, Contracting and Negotiation Policy, Strategy, Sales, Business Planning and Market Research, Ideation and Showcasing, Management and Business Consulting, Project Management, Action Research, Appreciative Inquiry and not least of all Applied /Experiential Learning.

Due to the pandemic, we had to cancel 2020's and 2021's summer programs, but in the 2021/2022 year, during the fall semester, we will continued working on social issues. In the summer of 2022, we are going to run the programme again in its seasonal form.

The iExpo is a "reverse job fair" where students get a chance to present their projects, research, business ideas. Aside from professional achievements, participants have the opportunity to showcase their skills and competencies. Students are divided into teams, and each has its own stalls where they can set up their displays that showcases their winning idea. Experts go around listening to students presentations/pitches, interacting with students, and award tokens to each project. The project with the most tokens wins cash prizes.

iExpo 2022, held in May, was attended by **22 teams** of more than **60 students** from **5 courses**. **12 experts**, represented **6 companies**, evaluated the work of our students and awarded the teams with special prizes.

Hackathon is a full-day exciting event where you can meet open-minded people, solve interesting tasks, improve your teamwork skills, get a crash course on how to turn an idea into a specific product or service. If you apply to the UP Hackathon, you can generate some idea and come up with specific suggestions in the theme "For a Greener and Healthier Future!"; "Hack4Health"; Biomed, Medtech or Cleantech. Our goal is to make your solutions as colorful as possible, which is why your teammates come from different faculties of the University of Pécs or from our foreign partner universities. There is nothing that could hinder your creativity!

2 international Hackathons (17-18th November 2021, 6-7th April 2022), 2 local Hackathons (23-24th September 2021, 23-24th February 2022)

The 5LET Outlet program allows students to pitch their innovative ideas to a group of experts and professionals. The best idea is included in the Simonyi Incubation Program, where a team develops the elements needed to implement the idea with the organic help of the idea owner.

The Simonyi Incubation Program is a 13 week long entrepreneurship program that gives students the opportunity to become idea creators or idea developers who get to develop business models into feasible business projects. There is also a Pitch competition at the end of the Simonyi Incubation Program where the idea owners present their projects in 2 minutes in front of a panel.

The Simonyi Final Pitch Competition is the final event of the Incubation Program, where business models of incubated business ideas are measured, assessed by the panel. The pitches are to attract funding, involve partners, and sell the concept or simply to validate the product or service. This event is not just the closing event of the Incubation Program but a point of interaction for the members of our ecosystem.

INPUT Program is a high-priority government project financed by the EU that was established in 2016. The Program aims to create and nurture internationally competitive Hungarian tech startups. It intends to facilitate the growth and transformation of the Hungarian startup ecosystem by encouraging entrepreneurs and helping them build sustainable ventures.

The INPUT Program offers four core services (trainings, mentoring, business development and international market access) to give hands-on guidance and support for startups in validating their ideas, finding investment, developing their products and entering international markets. As a strategic partner of the Simonyi BEDC Entrepreneurship Center Input is offering workshops, training through the Simonyi Incubation Program and through launching joint certificate programs. Every semester university students through our center and practitioners through the Input Program have the opportunity to discuss real-life problems, work on real projects and learn from each other.

This is the first practice-oriented, quality-assured program on startups, market environment, and the operation of innovative businesses that provide the same high level of training in every part of the country. The program is introduced to university education as a two-semester e-learning course and is available for every citizen of the University through the Simonyi Incubation Program. addition to the undergraduate and graduate students, PhD students can also join the program. The first semester is about acquiring the innovation basics and an entrepreneurial mindset, while the second semester focuses more on supporting, developing, mentoring project ideas, and teaching students how to assess market demand, prepare a business plan and deliver a successful investor pitch. Those students who have successfully completed the first semester and whose project idea found to be good enough by the Simonyi Final Pitch panel are eligible for a monthly scholarship grant of HUF 150,000. This high amount is intended to allow students to devote all their time to the project and prototyping. At the end of the course, the students have the opportunity to present their prototypes to incubators, angel investors, and venture capitalists.

In 2021, furing the first Hungarian Startup University Program, there was project awarded with funding, when 4 students were able to work on the project while receiving scholarship, mentoring, networking from the national initiative. In its second year, more than 100 students applied, 8 projects received funding and 37 students received scholarship and access to the resources of the Program. The Simonyi BEDC Entrepreneurship Center considers the Program a joint success with the Tech Transfer Office of the University of Pécs and the National Research, Development and Innovation Office (NKFIH)

The Technology Transfer Office (TTO) of the University of Pécs has been at the disposal of researchers, students, and business partners since 2005. Its mission is to efficiently integrate the knowledge base of the University into innovation processes, thus making use of research and development results and inventions as innovations that bring real value to the economy and society.

Simonyi BEDC Entrepreneurship Center and the Technology Transfer Office work together in numerous fields. They coordinate together the Hungarian Startup University Program, they provide mutual expertise, organize together the Innovation Day of the University, they provide assistance for the stakeholders of each organization.

Hiventures' mission is to support innovative ideas of the present and future and to foster a sustainable and value-generating ecosystem of start-ups, SMEs and large enterprises in Hungary. As a **state-owned venture capital company** and a member of the MFB Group, Hiventures supports the entire Hungarian entrepreneurial ecosystem with capital using their own resources and those from the European Union to provide financing solutions from the idea phase to large-scale investments.

As a strategic partner of the Simonyi Entrepreneurship Center, Hiventures experts have reserved seats in all of the Simonyi Final Pitch panels, they are guest lecturers in the Simonyi Incubation Program and in various classes during the semester's World of Practice Week.

Center for Applied Learning

Enter the World of Practice

Developing professional skills set right here on campus through postgraduate specialist training courses and short-term trainings

TRAININGS AND WORKSHOPS

PROFILE

Center for Applied Learning (CAL) coordinates postgraduate specialist training courses and organizes short-term trainings and workshops for students at the Faculty and also, in some cases, for students at the University on different fields of business such as finance, marketing and quality management.

The postgraduate specialist training courses provide additional professional and specialized one-year training and qualification after Bachelor's (BSc) and Master's (MSc) degrees for our Alumni and other practitioners, even from other disciplines.

"This was the first time I attended training like that, and I liked it very much. I signed up for the "Fundamentals of Investing not (only) for Economists" training mainly because I found the topic interesting. The lectures provided me with a lot of useful and interesting information, which I could use in my everyday life. It was a great advantage that it was held online because it was much easier to reconcile with my other classes."

OPENUP.PTE

Openup.pte.hu is a digital marketplace connecting students, alumni and practitioners through entrepreneurial interactions. This inspiring digital community at the University of Pécs makes connections and brings entrepreneurial projects to life.

SERVICES OF THE PLATFORM

Members of the platform can navigate exclusive **internship and job opportunities**, find and participate in company projects, network with company representatives or even receive one-on-one mentoring.

Students get professional assistance through **mentoring**, digital co-working spaces and interactive learning materials.

Student and project mentors assist **entrepreneurial projects** on their journeys towards real business success.

By entering the platform, Organizations and practitioners can meaningfully engage with a driven student body by taking an active role in their training and education.

Alumni of the University of Pécs can give back to their alma mater through sharing their expertise with students and entrepreneurial projects while reconnecting with ex-coursemates.

STATISTICS

WORLD OF PRACTICE (WOP) EVENTS

Iln 2021/2022 the World of Practice (WoP) events of the Faculty continued and expanded to University-wide events with a dedicated World of Practice Week each semester, continuous WoP events, and corporate guest lecturer series during the semester. Under the umbrella of WoP, the Center is also overseeing course-embedded real-life projects, organizes training programs, short programs hackathon and international hackathon events.

At the end of each semester at iExpo, members of the ecosystem do their 2-minute pitches about their idea, business model, corporate project milestone, or even about themselves .

We are proud of our

- more than 100 high quality guest speakers from home and many other countries,
- more than 300 involved students,
- 7 events with high student and corporate interest and participation,
- 6 joint projects that benefit our corporate partners.

On the upcoming pages, you can read about all the guests, organizations, partners, and alumni who visited our events and took their part in the value creation process of the Center for Applied Learning.

#1ST OMNICHANNEL DAY

ABOUT THE CONSUMER JOURNEY IN AN OMNICHANNEL ENVIRONMENT

13 May 2022, Pécs, Hungary (hybrid event, available also on MS Teams)

The Omnichannel Research Group of the Corvinus University of Budapest and the University of Pécs Faculty of Business and Economics invites you to the first Omnichannel Day.

The hybrid workshop is organised by the CoRe lab of the University of Pécs Faculty of Business and Economics with the support of the Hungarian Scientific Academy Department of Economics and Law Committee on Management Science Subcommittee on Marketing and EFOP-3.6.3-VEKOP-16-2017-00007 programme, and will be held on 13th May 2022 in Pécs, Hungary and also online on MS Teams.
